The Tichborne case had reached its fifty-first day in England at last mail accounts, and still witnesses come forward who identify the claimant as Rod-ger Charles Tichborne, and verify their recognition of a multitude of minute and ingenious tests. A correspondent writes that "a perfect revulsion of opinion has occurred since the case was opened, and every one declares that the ver-dict must be for the plaintiff." The famous Tichborne bonds issued by the claimant, and which sold a short time ago at a few pence on the pound ster-ling, have advanced to £40 on the £100.

A man in York, Pa., recently attempted to remove a wart from one of his thumbs with a pocket-knife; the would became very sore, commenced swelling rapidly, the inflammation spreading over his arm and chest, and finally mortification ensued, causing death.

A music dealer on Broadway, New York, has in his window a sentimental song thus marked: "Thou hast loved me and left me, for twenty-five cents." That is certainly the cheapest kind of a divorce, and leaves no necessity for going to Chicago.

The tedious routine of flirtation, introduction, courtship, engagement and marriage was successfully gone through with by an Arkansas couple in thirty-six minutes.

THIS CORN SHELLER weighs only three pounds, is made of east iron, has a rotary movement, and is the first invention in this line that shells "without friction on the cot," and is, therefore, the easiest operating Hand Corn Shellev in existence. It cannot get out of order by use, will last for years, shells all sizes of corn cars, can be used by any one at first sight. It can be fastened to a bench, chair or table, or for portable purposes screwed to a small board, which will answer for a seat when using the implement. In shelling, the operator grasps the butt of the ear of corn with the left hand, tresents the small end to the shelling teeth and rotates the sheller with the right hand; the acute angular teeth penetrating between the rows of corn close to the cob, shelling very easily and rapidly; when the ear can no longer be held, the projecting cob is taken hold of by the right hand, and the shelter rotated with the left. As this sheller is patented on a new principle we invite inspection. But seldem has such an opportunity been offered to energetic business men. We are tast disposing of County Rights to such men, and no others. This little Sheller supplies a want universally felt, as is proven by its rapid sale. The price—250-puts it in reach of all, white and black. Agents self from 15 to 30 per day; as many as 6, 12 or more on one farm. It will shell from 5 to 6 bushels per hour.

We have also the HARKISBURG POCKET SHELLER. Price 60 cents. Will shell 2 to 3 bushels per hour. Parties wishing County Rights or further indo mation will address us at Greenwood, S. C.

JOHN E. BACON, W. P. BUTLER, General Agents and Managers for South Carolina and Augusta, Georgia.

A S General Agents, we take pleaseure in presenting this well known and responsible Company to the public, and in recommending it as first class in every way. We might add much more on this subject, but, being interested as its Agents, prefer to speak through disinterested parties. Therefore, read and digest the following notices—among manf others—from both Northern and Southern papers, as to the virtues of this Company:

There is no better company in the land. A comparison with other corporations of a similar character will convince all of the superior safety in taking risks with the Brocklyn Life.

[Columbus, Ga., Sun, January 27, 1869.]

The Brooklyn Life has placed itself in the vanguard of insurance reform, and is the first company that has done full justice to the insured, &c.

[Lisurance Times, New York, January, 1869.]

This great feature of cash surrender values is an important improvement that signalizes the era of insurance.—Raleigh Sentinel, N. C.

This great feature of cash surrender values is an important improvement that signalizes the era of insurance.—Raleigh Sentinel, N. U.

This plan—guaranteed surrender values—removes the sole of jection txisting to making an application for insurance. Each policy becames a piece of negotiable paper, as easily transferred as a Government bond—Boston, Mass., Post, 1869.

A policy in the Brooklyn Life is worth so much in ready money. This is the only life company that has carried this excellent feature into business.

We call especial attention to this distinctive and advantageous feature of guaranteed surrender value, particularly characteristic of the Brooklyn Life. And also to the fact that there are no classes in the Brooklyn Life; all fare alike, whether from the North, South, East or West. Also, we direct the attention of the public to the fact that policies can be obtained in this Company, owing to its careful management and superior advantages, at lower rates than in any other company of equal rank and solvency in America.
